SUMMARY

Data Science graduate with an **Electronics & Telecommunication Engineering** background and **6+ months of hands-on Data Science & Analytics internship experience**. Proficient in **Python, data preprocessing, EDA, feature engineering, machine learning, SQL, and data visualization**. Certified in **Advanced Data Science & Analytics** by Electronics & ICT Academy, IIT Guwahati (MeitY, Govt. of India). Seeking **Data Scientist / Data Analyst / Data Science Intern** roles.

PROFESSIONAL EXPERIENCE

NEXGEN ANALYTIX

Data Science & Analytics Intern

Pune, India

May 2025 - Nov 2025

- Worked on **real-world business datasets (50K+ records)** involving **data cleaning, preprocessing, and EDA** using **Python**.
- Applied **machine learning models** for **analytical problem-solving** and **insight generation**, improving decision accuracy by **20%+**.
- Created **10+ visualizations and analytical reports** using **pandas, NumPy, Matplotlib, and SQL** to support **data-driven decision-making**.

PROJECT

LoRa-Based System For Energy-Efficient Building Lights

Pune, India

LoRa Technology | Energy Efficiency | Real-Time Data Monitoring | Smart Lighting

Sep 2023 - Apr 2024

- Developed** a **motion sensor system** for **corridor lighting**, reducing **energy usage** by **30–40%** and **electricity costs** by up to **50%**.
- Implemented optimization techniques**, achieving **95% accuracy** in lighting control based on **occupancy, ambient light** ($\pm 10\%$ error margin), and **time of day**, resulting in a **40% reduction in energy consumption**.
- Automated real-time data collection** using **LoRa technology**, enhancing **operational efficiency** by **90%** and providing actionable insights through **interactive dashboards** built with **Streamlit**.

Audible Vision

Pune, India

Python | Gemini 1.5 Pro | OCR | Text-to-Speech

Sep 2024 - Dec 2024

- Built an **AI-driven accessibility tool** using **Gemini-1.5-Pro**, enabling **real-time scene interpretation, text extraction, and text-to-speech conversion** for visually impaired users.
- Achieved **92% scene recognition** and **95% text detection accuracy** using **OCR and speech synthesis**, enhancing information accessibility by **80%**.
- Developed a **Python-based interactive interface** delivering a **< 2-second response time** and improving user autonomy and usability by **60%**.

EDUCATION

SAVITRIBAI PHULE UNIVERSITY
